Introduction

The International Association of Chinese Infrastructure Professionals (IACIP) is a US registered non-profit professional organization with its members working or studying in the fields of Civil Infrastructure and Systems (CIS) and related areas who are interested in CIS development and related issues. IACIP was founded in Washington DC in January 2010, which aims at (1) disseminating the most recent advance in the area of Civil Infrastructures and Systems, (2) establishing and maintaining the collaboration, (3) promoting the reputation of Chinese scholars, and (4) providing mentorship for young professionals. IACIP welcomes dedicated professionals to become its members. The first International Conference on Transportation Infrastructure and Materials (ICTIM) was held in Xi'an in 2016. The second ICTIM conference will be held in Oingdao, China from June 9 to 12, 2017, which is jointly organized by IACIP and the Qingdao University of Technology (QUT). This ICTIM will cover a broad range of topics related to transportation infrastructure and materials. You are invited to attend this conference and present and discuss recent developments and advances in the fields of transportation infrastructure and materials.

Along this conference, the Mount Tai Scholars Forum on disaster prevention and protection in geotechnical engineering will also be held.

About Qingdao and QUT

Qingdao, one of the most famous and beautiful cities in China, is located in the east coast of China and next to the Yellow Sea. The world's longest sea bridge, the Jiaozhou Bay Bridge, links the main urban area of Qingdao with Huangdao. The Qingdao University of Technology (QUT) is a multi-disciplinary university with particular strengths in Civil Engineering, Mechanical Engineering and Environmental Energy. After years of rapid development, the School of Civil Engineering at QUT has played important roles in undergraduate and graduate education, scientific research, and technology innovation in the civil engineering field of China.

Topics

- ◆ Pavement Mechanics and Geomechanics
- Geomaterials, Bituminous, and Concrete Materials
- ◆ Ground Improvement
- ◆ Shallow and Deep Foundations
- ◆ Embankments, Slopes, and Retaining Walls
- Unpaved Roads, Highway, Airport Pavements, and Railway Track
- ◆ Smart and Multifunctional Materials
- ◆ Intelligent Construction
- ◆ Sensor and Instrumentation
- ♦ Sustainability in Transportation Infrastructure
- ◆ Infrastructure Health Monitoring
- Tunneling and Underground Space Technology
- Other Related Topics

The official language of this conference is English. Abstracts should be submitted on the website www.ictim2017.com by September 15, 2016. Selected high-quality papers will be recommended for publication on SCI and EI-indexed Journals.

Important Dates

- ♦ Abstract due: September 15, 2016
- ◆ Acceptance of abstract: October 15, 2016
- ◆ Full paper due: December 15, 2016 (Full paper is not required but strongly recommended.)
